Stampin' Dimensionals by Stampin' Up

Mini Glue Dots by Glue Dots

Scor-Tape by Scor-Pal

Adhesive Remover by Xyron

Non-Stick Craft Sheet by Ranger

Titanium Micro-Tip Easy Action Scissors 5" by Fiskars

### Assembly Instructions:

1. Cut the Garden Green card base as per the template provided. Score the card base in the center, fold and burnish with a Bone Folder. From the remaining card stock, cut the leaves using the Little Leaves Sizzlits Die.
2. Print and cut the Whisper White as per the template provided.
3. Center the Whisper White greeting over the card front and cut with the Cannery Mason jar die.
4. Cut the Flowerpot Patterned Paper and Whisper White with the Cannery lid die.
5. Punch three flowers from Daffodil Delight with the Itty Bitty Accents flower punch.
6. Apply Yellow Stickles to each flower center and set aside to allow to dry.
7. Line the Whisper White sentiment behind the die cut opening. Still holding the panel in place, turn the card over and check to see if you need to trim any of the edges to allow the card to be centered. Once trimmed, attach the sentiment to the inside of the card with Mono Permanent Adhesive.
8. Apply Mono Permanent Adhesive to the back of the Whisper White greeting around the Mason jar cut out and attach the Window Sheet. Apply additional adhesive at the corners, if necessary
9. Attach Whisper White greeting to the front of the card with Dimensionals, lining up over the die cut opening.
10. Attach the Garden Green leaves to the card front with Mono Permanent Adhesive, referring to the image as a guide. Dry fit first so you know where the leaves will extend over the opening to make sure you don't place adhesive beyond the opening.
11. Attach the three Daffodil Delight flowers; one with Mono Permanent Adhesive, one with a Glue Dot

and one with a Dimensional to create dimension.

12. Wrap the Flowerpot Patterned Paper lid with Baker's Twine and tie a knot. Trim the edges to the desired length. Note: If you didn't get your Bakers Twine tight enough, you can correct that on the back with Mono Permanent Adhesive. Now attach to the Whisper White lid with Dimensionals.
13. Apply Glue Dots across the very top of the Whisper White lid and attach it to the front of the card, referring to the image as a guide.
14. Apply a TINY drop of Crystal Effects over each of the worm's eyes and place the Googly Eyes and set aside to allow to dry.
15. Decorate your envelope as desired.
16. Enjoy your card!

**Want to take this card up a notch? Try one of these ideas:**

- Cut a second DSP lid and place it inside the card, looking like the lid has been removed. As an alternative, if you didn't hide the adhesive when attaching the lid to the front, attach a second lid to the back.
- Add more Daffodil Delight flowers inside the card.
