Stampin' Dimensionals by Stampin' Up

Mini Glue Dots by Glue Dot International

Glossy Accents by Ranger

3M Heavy Duty Mounting Tape

Adhesive Remover by Xyron

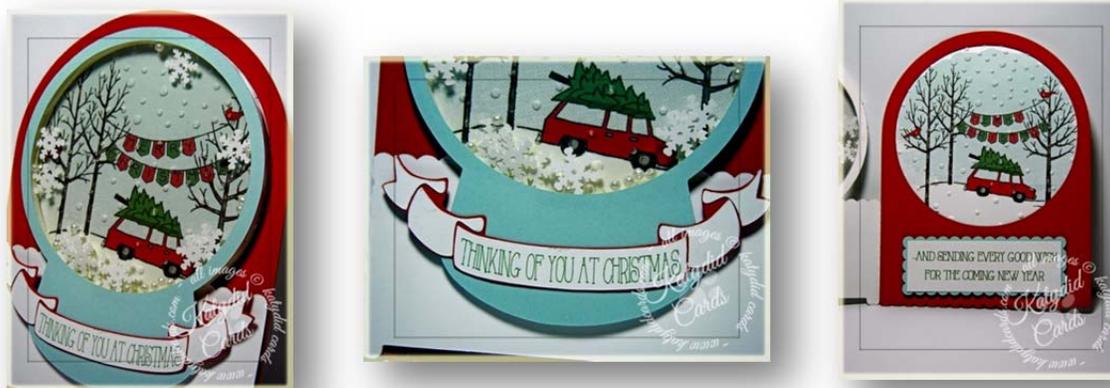

Non-Stick Craft Sheet by Ranger

Titanium Micro-Tip Easy Action Scissors 5" by Fiskars

Miscellaneous Accessories:

Pearl Seed Beads

Assembly Instructions:

1. Cut the Whisper White card base using the template provided. **Note:** If you prefer, you can eliminate the shaped card and cut a 5 1/2" x 8 1/2" base, score at 5 1/2", fold and burnish with a bone folder.
2. Create your winter scene by first stamping a "sky" background with the Happy Watercolor stamp and Soft Sky ink using the "One Off" method; ink your stamp, stamp first on scrap and then stamp on your card which softens your image. Then, using a combination of Classic Ink Pads and Stampin' Write Markers in the colors suggested, place your images as desired. Keep in mind the area which will show through the snow globe and also that the shaker contents will rest in the bottom of the opening, so don't place anything too low to be seen.
3. Emboss the inside of the card (over the image) with the Decorative Dots Embossing Folder.
4. Cut the Real Red Panel (on page two of the template) and attach over the back of the card. Dry fit first and slightly trim if necessary for a perfect fit. This panel serves two purposes; it covers any stamping outside the snow globe and it provides weight as a counter balance to the shaker on the front.
5. Cut the scallop rectangle shown in the template from Soft Sky and attach it to the inside of the card, centered on the bottom. As an alternative, you could simply cut a band to run across the inside of the card, using the Scallop Edge Border on top and bottom.
6. Create the sentiment with Garden Green on Whisper White, again using the template and attach to the scallop rectangle with Tombow Mono Adhesive. Attach the scallop rectangle with dimensionals.
7. Now to the shaker. Since this is a two sided shaker, you will need to cut two Window Sheet circles using the template. Attach one of them directly to the front of the card, over the ring of the snow globe. You need to ensure a strong bond to keep the shaker contents contained. Whatever adhesive you choose to use, make sure it doesn't overlap onto the Window Sheet or it will show through the shaker. If you opt for Glossy Accents or Tombow Liquid, allow it to dry thoroughly before continuing with the assembly.
8. Using the Mounting Tape, cut into thin strips (1/8") and line them around the ring, being careful not to extend beyond the edges of ring. Be sure not to leave any open spaces. **Note:** For this card, I wanted additional space between the two window sheets, so I created spacer rings (shown on the

template) and placed it on the card front *before* attaching the shaker frames. This is optional, you can decide for yourself if your card needs this extra space.

9. Cut the snow globe front from Soft Sky per the template.
10. Attach the second Window Sheet circle to the back of the snow globe.
11. Add dimensionals to the base section of the snow globe...single layer if you only used the shaker frame and double layer if you used the spacer rings as well.
12. Place the Frosted Sequins inside the shaker frames, make sure it's flattened and well away from the edges. For this card, the silver sequins were not used. Instead, pearl seed beads were added with the snowflakes. **Note:** Be careful not to add too much to the shaker as you don't want to obscure your image when the shaker contents are at rest.
13. Remove the protective covering from the shaker frames, carefully line up the snow globe over the shaker frame and attach.
14. Cut the banner from Real Red and Whisper White card stock. Stamp the desired greeting in Garden Green on the Whisper White center panel and attach the pieces to the Real Red. Attach the banner to the card front with Tombow Mono Adhesive in the middle and a dimensional on either side.
15. Using the snowflake from Visions of Santa, stamp the lower left corner of the envelope in Soft Sky.
16. Enjoy your card!

Note: A Silhouette Design Studio V3cut file is available upon request.

Want to take this card up a notch? Try one of these ideas:

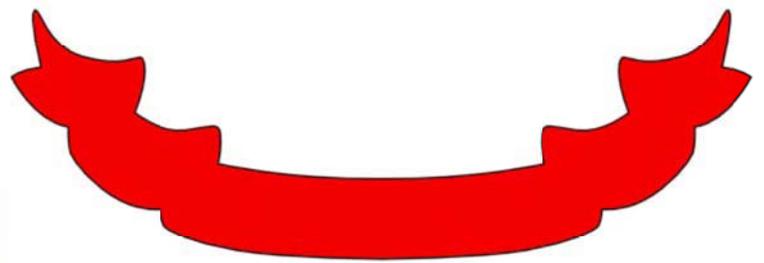

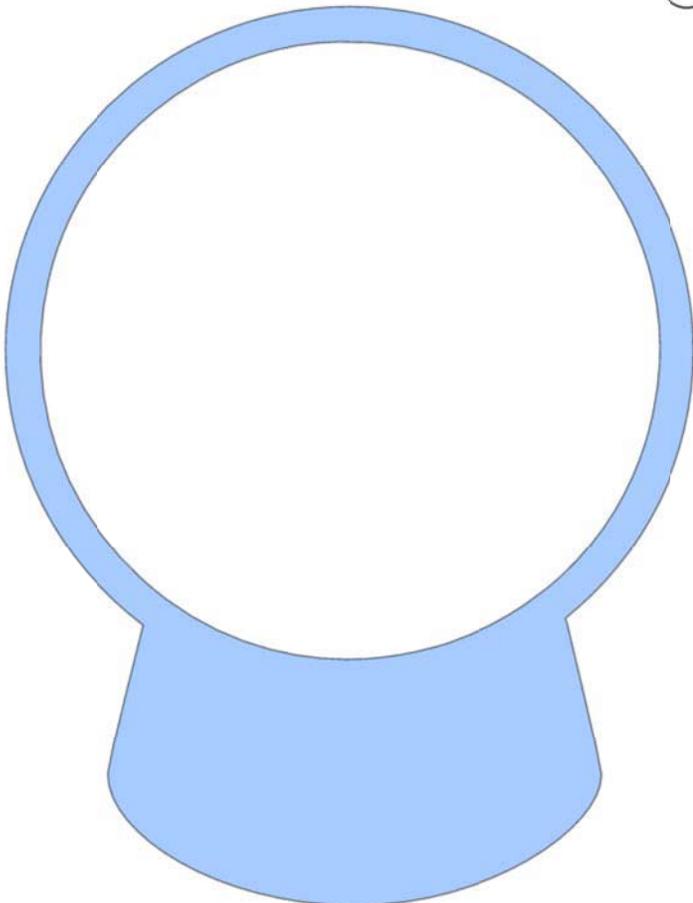

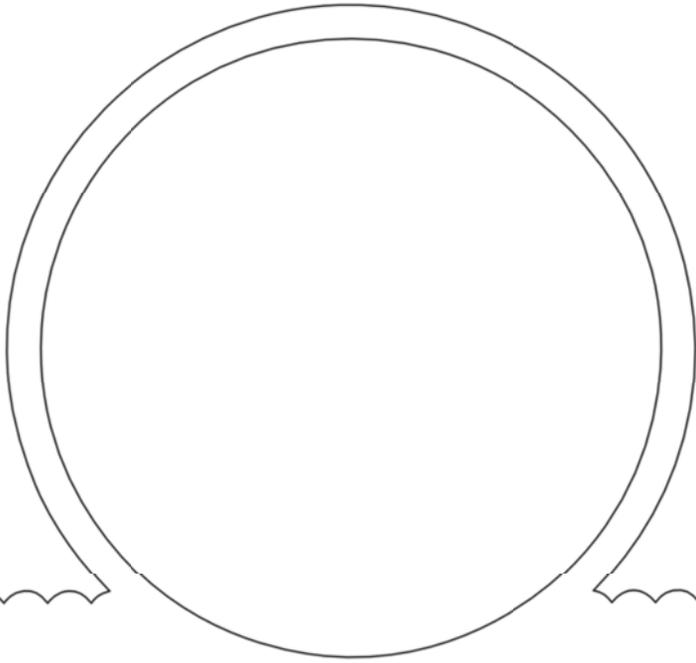

- Highlight the embossed dots with White Stampin' Chalk Marker.
- Or touch the dots with 2-Way Glue and sprinkle with Dazzling Diamonds Glitter
- Or mist the snow scene with Vanilla Shimmer Smooch Spritz
- Accent the banner with pearls or rhinestones.
