Assembly Instructions:

1. Cut the Cupcake card pieces using the template provided. The template is color coordinated to show which pieces should be cut from the Chocolate Chip, Pink Pirouette and Window Sheet.
2. Score the card base in the center, fold and burnish with a Bone Folder.
3. Using the Digital Create-A-Cupcake sprinkle stamp, color sprinkles randomly with Daffodil Delight, Garden Green, Marina Mist, Pumpkin Pie and Rose Red. If you don't have the MDS file, you can draw lines on the cupcake icing base to represent sprinkles. Using the image as a guide, draw the Rose Red lines in the icing. When complete, attach to the front of the Chocolate Chip card base.
4. Attach the Window Sheet to the Icing Top Ring (make sure they're facing the same direction as the icing base) with Glossy Accents or Tombow Liquid Adhesive. You need to ensure a strong bond to keep the shaker contents contained. Set the piece aside to allow to dry. Add some weight on top to ensure a good strong seal; an acrylic block would work perfectly.
5. Using the Heavy Duty Mounting Tape, cut thin strips and line them around the back of the icing ring. Be sure not to leave any open spaces between the pieces of frame. Dust the side edges of the tape with powder to reduce the tackiness.
6. Place the sprinkles centered on the icing base, flattened and well away from the sides, remove the protective covering from the Mounting Tape, carefully line up and attach over the icing base. Refer to the image and tips on how to create the perfect shaker for the amount of sprinkles to place inside the shaker; too many will prevent the contents from moving the way they should in a shaker.
7. Attach the brown cherry base over the shaker top with Tombow Mono Adhesive and then the cherry over that with dimensionals.
8. Attach Shaker top to the front of the Chocolate Chip card base with Tombow Mono Adhesive. The shaker extends beyond the edge of the card, so dry fit first to make sure you don't put adhesive on the exposed area.
9. Attach the Chocolate Chip cupcake bottom to the card base with dimensionals. Make sure you avoid placing dimensionals over the slots as you don't want them to show through on the front.

10. Print the greeting provided in the template on Whisper White card stock (or create your own with your favorite round stamp) and punch with the 1" Circle Punch.
11. Punch Pink Pirouette with the 1 1/4" Scallop Circle Punch; attach the circle greeting with dimensionals then center and attach them on the cupcake bottom, also with dimensionals.
12. On the interior panel, stamp the Remembering Your Birthday sentiment in Chocolate Chip. Create random sprinkles as you did on the icing base.
13. Decorate your envelope with the Create-A-Cupcake stamp or another cupcake stamp in your stash.
14. Enjoy your card!

Note: A Silhouette Design Studio V3 cut file is available upon request.

Want to take this card up a notch? Try one of these ideas:

- Add some Pink Pirouette ribbon across the front...it would look great pleated in opposite directions on either side of the greeting.
- Cut the cherry bottom from Red Glimmer Paper.
- Or coat the cherry bottom with Crystal Effects

Hints & Tips:

- The Mounting Tape is much easier to shape if you remove the protective covering first. If you do this, you must be careful to keep from getting anything on the tape to impact adhesion.
